

Dear parent/guardian,

Your son/daughter has been issued with a revision guide to help support them with their Science GCSE course. The revision guide should be used frequently to help consolidate the learning in lessons during homework activities and also regular revision. The Science department would like to request a voluntary contribution of £2.00 towards the cost of the revision guides.

We are now signed on to an online digital platform called Collins Connect for AQA GCSE Science. As part of this, all students have been given individual accounts so they can access the student books online as well as other helpful material that may include some tests and homework tasks.

Students can access their accounts by going to:

<https://connect.collins.co.uk/school/ALMONDBU1/Student/>

Once there, they can login by providing their date of birth, first letter of their surname and their year group.

If you have any technical difficulties please do not hesitate to contact me.

Please also encourage your son/daughter to regularly visit other valuable websites such as s-cool (<http://www.s-cool.co.uk/>) and GCSE bitesize (<http://www.bbc.co.uk/education/subjects/zrkw2hv>).

Your child is continually supported in school by a dedicated and highly skilled department who work very hard to ensure your child will reach their full potential. Revision classes will be provided nearer to the time of the final exams, but if you or your child have any questions about the Science work please do not hesitate to contact me on 01484 426666 (Mrs Varley – Science department).

Yours Sincerely

Jessica Varley

Assistant Achievement Leader Physical Education, Technology and Science.
